

Circular Connector Accessory 2

Features:

- Secure mechanical mount
- Protected electrical connection
- Quick cutter replacement
- Field assembly
- Reusable
- Removable

General Description:

The Circular Connector Accessory is designed to secure an electrically-initiated cord cutter to a military-style, electrical mating connector. The CCA simply replaces the bayonet snap ring of a circular plug connector. The CCA utilizes a torque nut to compress a collet-like clamp around the cutter body, which allows quick cutter installation and replacement.

Specifications:

- Connector mate: Mil-C-26482 Shell size 8 (i.e. PT06SE8-2S SR)
- Cutter mates: Model G2 or G4 by Roberts Research Laboratory
 - ◆ Part Numbers: CCA2-RRLG2 and CCA2-RRLG4
- CCA2 pull tests result in excess of 100 pound-force cutter retention
- Kit hardware includes: (1x) torque nut, (1x) retaining clip, (2x) spring pin
